

# Benicia CleanTech Expo 2013

**Press / Media / Friends - Feel free to use one of these briefs for online calendars, 30 second public service announcements or emails to your contacts.**

## **#1**

Announcing Benicia CleanTech Expo 2013, Solano County's only exposition dedicated to covering clean technology. Clock Tower, Benicia, CA – October 18, 1pm-6pm and October 19, 10am-4pm. Anyone engaged or interested in the new clean tech economy is invited to attend. This exposition continues the success of the initial 2012 Expo that celebrated twenty-six exhibitors, 19 workshops and over 400 attendees. A special feature of Expo 2013 will be a Makers/Innovators Space with hands on demonstrations of 3D printing. Exhibitors will cover all facets of alternative energy and transportation among other CleanTech sectors. Attendees at the expo will gain an up-to-date perspective on the state of the industry, policy developments, and emerging technologies. They will also learn the keys to successfully design, finance, and build renewable energy projects. There will be opportunities to learn about clean tech industry from local business leaders and educators through workshops and seminars. To become a sponsor or exhibitor visit <http://www.beniciacleantech.org>. Exhibitor space is available to clean-tech related businesses and organizations for \$75 and the public is welcome to attend for free. PRIZES: free drawings for two iPad minis and an electric bike valued at \$2000! Sponsors include the Benicia Community Sustainability Commission, City of Benicia Office of Economic Development, Solano Center for Business Innovation, Solano CleanTech Innovators Association and Republic Services.

## **#2 (SHORTER)**
